OBJECTIVE

Third-year Computer Science Engineering student currently focusing on **Data Structures, Algorithms**, and full-stack development with the **MERN** stack. I have a proven track record of building and deploying real-world solutions, while actively refining my expertise through **competitive programming**. Committed to translating complex problem-solving into building robust, **scalable** software architectures.

EDUCATION

Bachelor of Technology (Computer Science & Engineering)

2023 - 2027

Baderia Global Institute of Engineering and Management (RGPV)

Jabalpur, Madhya Pradesh

CGPA : 7.06

PROJECTS

HouseHunt - HouseRent Management System | MERN | Demo Video | Github 🐙

- **Technologies** : React.js, Node.js, Express.js, MongoDB, JWT, JavaScript.
- Developed a full-stack House Rent Management System enabling users to explore, list, and manage rental properties, supporting up to 500+ daily active queries with under 200ms API response latency.
- Built dynamic property listing features with search, filters, and a secure inquiry system, reducing manual property search time by 40% for seamless user interaction.

Safe Transit Assistant - Safety Navigation System | React.js | Live App | Demo Video | Github 🐙

- **Technologies** : JavaScript and React.js.
- Developed a navigation system prioritizing crime-free, well-lit routes, analyzing 10,000+ real-time data points on crime rates, crowd density, and lighting to calculate dynamic safety scores.
- Engineered a predictive algorithm to identify and avoid high-risk zones based on time with 95% accuracy.

TECHNICAL SKILLS

Languages : C, C++, Java, Python, Javascript

Developer Tools & Technologies: Git, GitHub, Node.js, Express.js, React.js, MongoDB, RESTful APIs, Tailwind CSS

Coursework: Data Structures & Algorithms, Computer Networks, Database Management Systems, Operating Systems, OOPs

ACHIEVEMENTS

- Secured Rank 2 in the SIH Internal Hackathon 2024 out of competing teams.
- Achieved a 1500+ rating in LeetCode Coding Contests.
- Solved 300+ Data Structures and Algorithms questions, earning a 50-day consistency badge on LeetCode.

EXTRA-CURRICULAR

- Engaged in web design and creative UI/UX development.
- Active participant in full-stack development communities and competitive programming.
